INTRODUCTION

A primary objective of the Allen Park School District is to assist each student to develop into a responsible, law-abiding citizen. Each student is given the opportunity and environment to reach his/her maximum potential. An aspect of the growing-up process is respect for rules and regulations established for the protection of the rights of all members of the school community. Violations of these rules and regulations are harmful to the rights and privileges of others and cannot be tolerated.

The discipline policy of the Allen Park School District is based on humanitarian principles and ideals. The District recognizes the dignity and worth of each student. When it becomes necessary to use corrective measures, the action taken is to be based on sound guidance principles and respect for the individual.

The immediate objective of school discipline is to maintain effective learning conditions. The ultimate objective is student growth. Student abilities, attitudes, and habits essential to acceptable self-controlled behavior is the foundation of the Code of Conduct. This Code of Conduct applies to all students attending school, en route to or from school, and while in attendance at school-sponsored events. Reference should be made to your building's student handbook for variations/exceptions to this Code of Conduct.

LEGAL BASIS FOR SCHOOL DISCIPLINE

If there is reasonable cause to believe that the pupil is handicapped, and the school district has not evaluated the pupil in accordance with rules of the state board to determine if the student is handicapped, the pupil shall be evaluated immediately by the intermediate school district of which the school district is constituent in accordance with Section 1711.

However a school board is not required to expel a pupil for possessing a weapon if the pupil establishes in a clear and convincing manner at least one (1) of the following:

- c) "Physical assault" means intentionally causing or attempting to cause physical harm to another through force or violence. MCL § 380.1311a (12) (b).

RIGHTS AND RESPONSIBILITIES

Students, like all citizens, have rights guaranteed by the Constitution of the United States. The First Amendment insures the freedom of religion, speech, press, assembly, and petition, and the Fourteenth Amendment guarantees due process and equal protection. These rights apply to school situations.

A primary task of the school is to create a stimulating learning climate for all students. Such a climate includes a broad exposure to the rights and responsibilities of citizens in a democratic society. That the school community in educating the young for citizenship is reason for scrupulous protection of the constitutional freedoms of the individual involved.

Students are given opportunities to exercise their rights and assume responsibilities for citizenship.

Our schools strive for equity and balance. This can be accomplished only when the rights of students are equitable and balanced by the responsibilities on which the rights are based.

The rights of an individual are preserved only by the protection and preservation of the rights of others. A student is responsible for the way he/she exercises his/her rights. A student must accept the consequences of his/her actions and recognize the boundaries of his/her rights. Each exercise of an individual's rights must demonstrate respect for the rights of other. To achieve the goal of a democratic society, the staff, students, and parents must work cooperatively to avoid the extremes of regimentation or anarchy.

These statements set forth the rights and responsibilities of students in the public schools of Allen Park. These rights and responsibilities are inseparable. These statements should not be interpreted as all-inclusive. The student has rights guaranteed by the Constitution and the law.

TRESPASSING

It shall be unlawful to trespass upon private or public property without the expressed or implied consent or license of the owner (Code 1957, 8-132; Ord. No. 70-18, 32, 4-27-71).

EDUCATION

Students have the right to an education and they also have the responsibility not to interfere with or threaten the education of others by their actions. Each student has the responsibility to attend school regularly and to abide by the policies and regulations of the school.

Students have the right to seek changes in school policies and regulations in an orderly manner by utilizing the channels provided for this purpose.

EXPRESSION

A basic purpose of education is to prepare students for a democratic society. Students have the right to express opinions, to take stands, and to support causes either publicly or privately. There should be no unlawful interferences by the school with these liberties or with the student's expression of controversial points of view.

SPEECH

Students have the right to express their opinions either verbally or symbolically as long as they do not disrupt the educational process.

As intellectual beings, students have a right to search for truth by examining opposing ideas and to express in an orderly manner whatever views command the assent of their minds. Where soundness of their position can neither be proved nor disproved with documentation, they shall in no way be penalized academically for holding those views.

A student's responsibility must include personal concerns for the effect of the spoken word or symbolic expression on the personal reputation of others. Students have the right to have their own personal reputation protected accordingly. Consequently, personal attacks and obscenities are prohibited.

PETITION

Students have the right to present petitions; however, the collecting of signatures on petitions shall not disrupt classroom procedures nor interfere with the educational process. Students shall not be subjected to disciplinary measures for initiating or signing a petition providing that the petition is free from obscenities, libelous statements, and personal attack.

PUBLICATIONS

School-sponsored Publications

Students who edit, publish, or distribute school-sponsored and/or curriculum related publications, or who produce school-sponsored or curriculum related radio or television material, are prohibited from presenting any material which contains obscene, lewd, vulgar, or other plainly offensive speech. Building administrators and staff additionally retain the right to control content over school-sponsored publications to assure that participants learn whatever lessons the activity relative to the publication(s) is designed to teach, and to assure that readers or listeners are not exposed to material inappropriate for their level of maturity, and that views of individual speakers are not attributed to the schools or School District.

Non-school Sponsored Publications:

Students who wish to edit, publish or distribute non-school sponsored publications in any form among students within their schools must assume responsibility for the content of such publications. The publications shall not contain any material which is obscene, lewd, vulgar, or otherwise plainly offensive speech. Additionally, any material which causes or may tend to cause a substantial and material disruption to the good order and operation of the school may be prohibited. Building administrators may impose reasonable time, place and manner restrictions on the distribution of all student publications and communications.

ASSEMBLY

Students have the right to assemble peacefully. There is an appropriate time and place for the expression of opinions and beliefs. Conducting and/or participating in demonstrations which interfere with the operation of the school or classroom is not permitted.

STUDENT DRESS CODE

The Board recognizes the right of each building to establish and enforce their own dress code guidelines. These guidelines can be found in each building's student handbook/dress code guidelines.

Students are expected to determine their patterns of dress and grooming, provided that such dress and grooming do not interfere with the health and safety of themselves or others and does not interfere with the educational process of the school.

STUDENT ACTIVITIES

Students have the right to participate in school activities regardless of race, sex, color, creed, religion, national origin, or physical handicap.

Students may not be denied participation in any activity for any reason other than those established by state, county, and school eligibility requirements legitimately related to the purpose of the activity.

Students temporarily suspended from school shall not be allowed to attend or participate in any curricular or extracurricular activity during the time of their suspension unless the terms of their suspension allow otherwise.

OFF-CAMPUS CONDUCT

Students in attendance at school-sponsored, off-campus events are subject to the direction and authority of school district personnel and are governed by all applicable rules and regulations of the Allen Park School District. In addition, students' off-campus actions that have a direct and immediate effect on the general safety and welfare of students and staff may result in disciplinary action whether or not part of a school-sponsored activity.

STUDENT'S PROPERTY

A student's personal property is his/her own. Students are, however, discouraged from bringing to school valuable items such as jewelry, radios, and cassettes, compact disks, compact disk players, laptop computers and other electronic communication devices (ECD), which could be stolen, damaged, or proved disruptive to others. If valuable personal property is to be used in a school-related project, the student should arrange with the staff for its safekeeping.

SEARCH AND SEIZURE

General Searches

General searches of school property may be conducted at any time by school personnel for the purpose of enforcing school regulations concerning health, safety, or order.

Student Privacy

The Board of Education recognizes that the privacy of students in their persons and their immediate personal property may not be violated by an unreasonable search and seizure, and accordingly students and their immediate personal property will not be subject to search and seizure without reasonable, individualized suspicion of misconduct.

Searches of Person and Personal Property

Upon reasonable suspicion to believe that a student may possess illegal items (firearms, weapons, drugs, etc.) or other items reasonably determined to be a threat to the safety or security of the student or others, or items which are used or attempted to be used to disrupt or interfere with the educational process, an administrator may search that student's person and the property of the student, including by way of example, bags, briefcase, satchels, purses, and automobiles.

STUDENT PARKING - HIGH SCHOOL

It is considered a privilege to park in the high school parking lot. Students are not allowed to park in any area not designated for student parking. If students disregard the traffic or parking regulations, they will lose this privilege. Possible consequences of traffic or parking violations include sticker notices, loss of parking permit, ticket from the Allen Park Police Department, towing and suspension. Allen Park Public Schools assumes no responsibility for any damage or theft that may occur.

Search of Vehicles; High School Parking Lot

By entering the high school parking lot, the person in charge of any vehicle consents to search of the entire vehicle and its contents (with or without cause) by school officials (or police officers).

Lockers or Other School Property Assigned to Students

Lockers, desks, and other School District property that may be assigned to students remains the property of the School District and are assigned so that students may store supplies, clothing, and other items necessary for their needs while at school. Students have no expectation of privacy in lockers, desks, or other school property assigned to them for storage purposes, or in the contents thereof. Searches of lockers, desks, other storage properties, or their contents may be conducted at any time, with or without reasonable suspicion. A student's privacy rights as to any items which are not illegal or against school policy will be preserved.

Seizure

Illegal items or other items reasonably determined to be a threat to the safety or security of others, or items which are used, or attempted to be used, to disrupt or interfere with the educational process, will be removed from the student's possession. Such items may be turned over to law enforcement agencies and used in connection with criminal proceedings against the student, as well as disciplinary action by the Allen Park Public Schools.

PROCEDURES FOR REVIEW

The Code of Conduct is designed to promote fair application of rules and regulations. However, in instances where a parent or guardian believes a particular situation has not been satisfactorily resolved, it is important to follow the appropriate Procedures for Review. Initial discussions to resolve a concern should begin with the teacher if there is a concern regarding the teacher and your student, or the assistant principal, if there is a concern regarding the assistant principal and your child. Usually, these concerns can be resolved by discussion with the individuals involved at each level. This process is essential to success. Sometimes the parent or guardian may sense that the relationship is not working effectively. Then and only then should the concern be forwarded to the next level in the chain of command, i.e. principal first and then second, the office of the Superintendent (the Superintendent may designate or assign a designee to resolve the issue). At this point, the situation will be reviewed and investigated if necessary. You will be asked to be patient while all particulars regarding the situation are reviewed. It is important that all parties understand the need for calm and objective assessment of the concern. All parties will endeavor to reach a resolution that is fair and consistent with existing Board policies and in the best interests of the student. Likewise, it is expected that employee rights and responsibilities will be upheld.

Should a parent or guardian be aggrieved and also believe that any Federal law be implicated or violated, that person may invoke the Grievance Procedures set forth at Pages 21-24 herein. Nothing in this section is intended to discourage a parent or guardian from at any time filing a complaint of sexual harassment, as set forth in the Grievance Procedures below at Pages 21-24.

PHILOSOPHY OF ATTENDANCE

Attendance in class is directly related to success in school. Classroom instruction is organized in such a manner that the tutorial assistance of the teacher and the interaction of pupil discussion and activities are an integral part of instruction and requires attendance in class. It is recognized that students may not be able to attend class for the legitimate reasons listed below and will be permitted nine (9) days during each semester in each class to accommodate these matters:

1. Illness
2. Professional appointments which cannot be scheduled outside the normal school day
3. Personal and/or family problems
4. Death in the family
5. Religious holidays

Vacations, prearranged absences, or any other excused or unexcused absences will be counted as part of the nine (9) days. Students will be responsible for any required work during any missed class.

The Michigan compulsory law (380.1561) states a child who turns age 11 on or after December 1, 2009 or a child who was age 11 before that date and enters grade 6 in 2009 or later, the child's parent, guardian, or other person in this state having control and charge of the child shall send the child to a public school during the entire school year from the age of 6 to the child's eighteenth birthday. The Allen Park Board of

Education strongly supports a policy of utilizing every resource available to involve students in an on-going educational program on the basis of regular attendance. Each child is encouraged through a conscious effort on the part of the personnel to reach their maximum potential in all areas of development.

ALLEN PARK HIGH SCHOOL – ATTENDANCE

- A. In order to provide a quality education for the students of Allen Park High School, good student attendance must be an important priority. It is an accepted reality that students achieve at a higher level when maximum time is spent on task in their various classes. Every effort should be made by students and parents to keep absences from school to an absolute minimum.

Attendance is the sole responsibility of the parent and student. Allen Park Public Schools has adopted two different parent notification systems to keep our parents updated regarding their child's attendance. Because of these new automated systems, we will no longer be sending home attendance letters or making personal phone calls to give you updates regarding you child's attendance.

1) Automated Caller: Allen Park High School has access to an automated attendance calling system. This system will notify a parent when their child has been marked absent / unexcused from school. Calls go out two times per day. If you receive a call from our automated system, you are strongly encouraged to speak with your child regarding the absence. If a mistake happens and you received a call when your child was in class, you should contact the main office the next business day to clarify the situation. The teacher of record will be contacted regarding the absence in question.

2) Parent Connect: Parent Connect is an online tool that assists parents in staying updated with their child's academics and attendance on a daily basis. Parent Connect has several different features for our parents use. Through this resource, parents have instant access to their child's attendance, grades, teacher email, and homework. As a parent, you can log in the system 24 hours a day 7 days per week. Log-in information and password are available by contacting the Main Office.

3) Make a phone call or send an email: As a parent you have the right and ability to make a phone call or send an email whenever you have a question or concern regarding your child's attendance. Your child's assistant principal would be more than happy to look up your child's attendance and discuss any issues over the phone.

With these new parent notification features and / or by simply making a phone call we feel our students and parents have no reason to not be connected and updated regarding their child's academic and attendance records.

If you have questions about the attendance policy please contact:

Assistant Principal

An excused absence is any absence which fulfills the following three criteria

1. Due to:
 - a) Illness
 - b) Professional appointments which cannot be scheduled outside the normal school day
 - c) Personal and/or family problems
 - d) Death in the family
 - e) Religious holidays
2. Is called in by a parent or guardian
3. Is documented appropriately

Students may make up missed work for credit within a reasonable period of time as set by the teacher and student.

An unexcused absence is any absence that does not fulfill the definition of excused and is not a suspension day. Students are entitled to make up missed work but will not receive credit for the work.

1. A maximum of nine (9) days absent will be allowed per semester class. These days include illness, funerals, extreme family emergencies, religious holidays, and legal business, which cannot be done after school hours. An extension of days may be granted only if the above-mentioned excuses extend beyond the nine (9) day allotment. All days must have a documented excuse for an extension to be considered.
2. A student exceeding nine (9) days absent in a class has violated the code of conduct and will lose credit for that class. Upon the 9th absence parents are strongly encouraged to contact their child's assistant principal and ask for an Attendance Appeal. This is the responsibility of the parent and/or student. If an Attendance Appeal is granted, a (Attendance Appeal) form must be filled out and signed by both the student and parent. Students auditing a class will be required to attend class each day and may continue working for credit pending the outcome of an appeal. Students placed on audit will be subject to all policies of the Code of Conduct.
3. If a student is absent, a phone call must be made to the attendance office (313) 827-1250 by a parent or guardian by the end of that school-day in order for the absence to be excused. Failure to call will result in the absence being treated as an unexcused absence.
4. There will be no difference between excused and unexcused absences as they relate to the nine (9) day total.
5. Any student reporting to school after 8:00 a.m. must report to the attendance office for a late pass. Students arriving after the first ten (10) minutes of the hour will be marked absent. This absence will be charged as one of the nine allowable days.

6. Within each class period, students arriving prior to the ten (10) minute tardy time frame will be marked tardy,
7. A student who is not maintaining attendance in at least four classes could be dropped from Allen Park High School for the remainder of the semester.
8. If a student wishes to appeal his or her loss of class credit due to attendance, a written request must be made to the Attendance Office within 48 hours of receiving the Attendance Appeal Request Form. The Appeal Committee will convene to review all appeals during the final two (2) weeks of both the first and second semester.
9. The Appeal Committee will consist of an administrator, counselor, the Individual teacher and when necessary a department head.
10. All administrative-approved school business activities that take students out of their class/school will not be considered an absence or tardy to be deducted from their nine (9) day absence allowance. These activities must be approved in advance.
11. Any student who needs to leave school because of illness or emergencies must report to the Attendance Office for permission to sign out. The Attendance Office will call home before the student is permitted to leave. Whenever a student signs out, those hours missed will be counted against the maximum of nine (9) allowed absences. Doctor and dentist appointments should be made after school hours.
12. Exceptions to these policies include: homebound students and extended hospital treatment (must be documented).
13. This policy will be reviewed annually and necessary adjustments will be made.

B. Tardiness in the morning and to classes

1. A student shall be recorded tardy for failure to be in the assigned classroom when the tardy bell starts ringing.
2. When a student is more than ten (10) minutes late to a class, that class will count as an absence.
3. Upon receiving a 3rd, 4th or 5th tardy to class, at the teacher's discretion, the student may be assigned a one (1) hour morning or afternoon detention.
4. Upon receiving a 6th, 7th and/or 8th tardy to class, students will be assigned a one day in school suspension.
5. When a student accumulates nine (9) or more tardies to class, the student will be referred to the Assistant Principal's office. Students will be assigned a one (1) day out-of-school suspension.

ALLEN PARK HIGH SCHOOL – VACATION POLICY

Vacation time during the school year is discouraged. However, if necessary, requests must be made at least one week prior to the first day of absence. A student may obtain a vacation request form in the main office. It requires that the student obtain teachers' signatures with the student's total number of absences to date in each class. The completed form should be returned to the attendance office before vacation departure.

- Assignments must be obtained prior to the first day of absence.
- All assignments are due the first day back to class.
- **IMPORTANT:** Vacation days factor into the 9-day maximum per semester. An audit begins on the 10th absence, with a possible loss of credit.

The parent must review and return the signed vacation request form to the Attendance Office. Failure to do so will result in “unexcused” absences.

ALLEN PARK HIGH SCHOOL – FOOD SERVICE LATE FEES

The “Zangle” Point of Sale System used in the District is designed to be a prepaid system where students deposit money into their account to make purchases. There is a “no charging” policy at the High School Level. Students must have money in their account or cash in hand in order to purchase food or beverage items. Checks can be made payable to: “Allen Park Public Schools”, listing the student’s name and account number in the memo line of the check. It is District practice to charge a \$20.00 fee for any check returned by the bank as non-payable.

MIDDLE SCHOOL – ATTENDANCE

1. After the first ten (10) absences in each semester (whether full or half-day), the parent/guardian will be contacted for an explanation of the absences.
2. After eighteen (18) total absences, a referral to the school counselors or school social worker will be made. Interventions may include:
 - a. student interview
 - b. parent contact
 - c. contact with liaison officer
 - d. filing a truancy complaint with appropriate authorities
3. After twenty-five (25) total absences, the principal, or his/her designee, will file a report with the Wayne County Prosecuting Attorney’s Office that will determine the most appropriate intervention. This may include:
 - a. student interview
 - b. parent contact or home visit
 - c. filing a truancy complaint with appropriate authorities

MIDDLE SCHOOL – TARDY PROCEDURES

"Tardy" shall be defined as not being in the classroom before the scheduled start of class.

1. First thru the third tardy in a card marking, the teacher shall issue a tardy warning.
2. Fourth and fifth tardies in a card marking, the teacher shall write referrals. A one and half hour detention will be assigned for each tardy.
3. Sixth tardy in a card marking, the teacher shall write a referral and student will be assigned an out of school suspension. Additional tardies beyond six will be a one day out of school suspension for each additional tardy.

First hour tardies may be excused by a parent within 24 hours for the following reasons:

- a. illness

- b. professional appointments which cannot be scheduled outside the normal school day
- c. personal and/or other family problems

At the discretion of the APMS administration, tardy sweeps will be employed. During periods of tardy sweeps, tardy students will be assigned after school detention on the day of their infraction.

ALLEN PARK PUBLIC SCHOOLS DENIAL OF EDUCATION PARTICIPATION; DISCIPLINARY MEASURES

The following are some examples of disciplinary action which may be used when a student's behavior interferes with the educational process or safe orderly conduct at school activities. Parents will be notified whenever any of the following disciplinary measures are used:

- a. removal from class
- b. closing of class
- c. detention
- d. Saturday detention
- e. in-school suspension
- f. suspension
- g. expulsion

The method of discipline used is at the discretion of school staff following guidelines of this Code. The type selected should be the most constructive possible for the circumstance. School staff recognizes that the goal of any disciplinary measure is to assist the student to change behavior in such a way that the student's future conduct will be more acceptable and more directed toward educational attainment.

EVERY EFFORT SHOULD BE MADE TO HAVE THE STUDENT CONTINUE STUDIES DURING ANY DISCIPLINARY PERIOD.

Students who have been suspended from school shall not be eligible to participate in or attend curricular or extracurricular activities during the time of their suspension unless the terms of their suspension allow otherwise.

After such denial of educational participation is made, every effort shall be exerted to determine and resolve the causes for such behavior which might lead to the student's reinstatement. These efforts may include psychological evaluation, social work, and/or counseling services when available and appropriate.

REMOVAL FROM CLASS

A teacher may temporarily remove a student from class when the seriousness of the offense, the persistence of the misbehavior, or the disruptive conduct, in the opinion of the teacher, disrupts the educational process of the other students in the classroom. A teacher may also temporarily remove a student from class when the student has been defiant and/or disrespectful to the teacher. The teacher, as soon as possible or no later than the end of the school day, will report, in writing, to the administrator the circumstances leading to the student's removal from class.

SNAP SUSPENSIONS

A teacher may in-house suspend a pupil for a class period or up to one full day if the teacher deems that the pupil's conduct in the classroom subject or activity would otherwise warrant the pupil's suspension. The Allen Park Board of Education defines the following types of conduct that apply: physically fighting; profanity/inappropriate use of language after repeated warnings; refusing to wear safety glasses or other required

attire despite teacher's request that the safety equipment must be worn; using a laser light without the teacher's permission; possessing, using or being under the influence of alcohol or a controlled substance; and/or having a dangerous weapon as defined by the Revised School Code.

The teacher procedures are as follows:

1. The teacher must provide a written report of the reasons for the suspension to the building principal.
2. The teacher must make a parent/guardian contact by phone or conference no later than the start of the following day.
3. A written report of the contact must be provided to the principal.
4. A record of the teacher-imposed suspension will be kept on file.

The principal may revoke, for just cause, an individual teacher's right to suspend students.

PROCEDURE – STUDENT SENT HOME

If it is determined the student is to be sent home, the administrator shall immediately notify the parents or legal guardian, or other adult designated with authority over the student, of the school's action and inform them that their child is being sent from the building. If the administrator cannot reach the parents or legal guardian, the student must remain on school property for the remainder of the school day. Should the school fail to make personal contact with the family within twenty-four (24) hours, a letter must be sent informing them of the school's action.

If it is determined that immediate removal of the student(s) is necessary to restore or maintain order, or to protect persons on the school grounds, the administrator may close the student's classes immediately.

In such cases the administrator is not required to conduct an investigation before closing classes but shall conduct an investigation and decide on formal disciplinary action as soon as possible, but not to exceed the end of the third school day following the closing of classes. Should investigation show that the student is free from any part of the alleged misconduct, the student shall be reinstated to classes and shall be allowed to make up his/her class work.

CLOSING OF CLASSES

A class, or all classes, may be closed by the administrator for a definite period of time. If all classes are closed for a period of time beyond nine (9) days, the expulsion procedure, as incorporated in the Code of Conduct, must be followed.

PARENT CONFERENCE

A class or all classes may be closed pending a parent conference in lieu of suspension, only if the following criteria are met:

- a. The student's records show regular patterns of truancy and/or tardiness, persistent disobedience, or gross misdemeanor.
- b. The administrator must ascertain that the above misbehavior can best be dealt with through a conference including the student, parent, or legal guardian, or other adult designated with authority over the student, and whatever staff would seem appropriate.

The conference should be as soon as can be mutually arranged with the parent or legal guardian or other adult designated with authority over the student. Upon completion of that conference, the student will be reinstated to the class or classes which have been closed, unless otherwise mutually agreed.

Should the parent, legal guardian, or other adult designated with authority over the student fail to appear for a conference within three (3) school days of the closing of the student's class or classes, the student shall be returned to class, and the school shall officially classify the action as a three-day suspension with appropriate notification sent to all persons concerned.

CORPORAL PUNISHMENT

Section 1312 of the Revised School Code, MCL §380.1312, provides, in part, as follows:

1. As used in this section, "Corporal punishment" means the deliberate infliction of physical pain by hitting, paddling, spanking, slapping, or any other physical force used as a means of discipline.
2. Corporal punishment does not include physical pain caused by reasonable physical activities associated with athletic training.
3. A person employed by or engaged as a volunteer or contractor by a local or immediate school board or public school academy shall not inflict or cause to be inflicted, corporal punishment upon any pupil under any circumstances.
4. A person employed by or engaged as a volunteer or contractor by a local or intermediate school board or public school academy may use reasonable physical force upon a pupil as necessary to maintain order and control in a school or school-related setting for the purpose of providing an environment conducive to safety and learning. In maintaining that order and control, the person may use physical force upon a pupil as may be necessary for one or more of the following:
 - a. To restrain or remove a pupil whose behavior is interfering with the orderly exercise and performance of school district or public school academy functions within a school or at a school-related activity, if that pupil has refused to comply with a request to refrain from further disruptive acts.
 - b. For self-defense or the defense of another.
 - c. To prevent a pupil from inflicting harm on himself or herself.
 - d. To quell a disturbance that threatens physical injury to any person.
 - e. To obtain possession of a weapon or other dangerous object upon or within the control of a pupil.
 - f. To protect property. MCL § 380.1312

DETENTION

As an alternative disciplinary method, the teacher or administrator may assign a detention. Such a detention shall meet before or after regular school hours and shall serve as an alternative to suspension for students involved in minor disciplinary infractions.

SUSPENSION

Out-of-school Suspension

A student may be assigned an out-of-school suspension for a definite period of time by an administrator for violations of the Code of Conduct.

Any violations of federal, state and/or local laws will be promptly reported to the appropriate law enforcement agency.

Suspensions may be short or long term. The length of the suspension will be related to the seriousness of the offense and the frequency of the offense. The length of the suspension will be determined by the building principal or his/her designee.

In-school Suspension – Middle School

A student may be assigned to the in-school suspension room for a definite period of time by an administrator for infractions to the Code of Conduct.

Students successfully serving time in the in-school suspension room will not be charged with an absence for classes.

The following general rules, while not all inclusive, will govern the behavior of the students assigned to the room.

In-School Suspension Room Rules and Regulations

1. All school rules will apply to students in the in-school suspension room.
2. Students will be allowed to leave the room only when accompanied by the supervisor, or for emergency purposes.
3. Students will bring work and necessary materials (books, pencil/pen, etc.) with them to the room and be given an assignment by the supervisor.
4. Students will be assigned a given seat for the day; talking or sleeping will not be tolerated.
5. Students not conforming with these rules and regulations will be assigned their suspension out of school.

After a student accumulates nine (9) days of in-school (repeated) suspensions, the in-school suspension room will be closed to this student and all subsequent suspensions will be served at home.

In-school Suspension – High School

For attendance purposes, the student who attends, the I.S.S. class is not marked “absent” from school. Academically, this option allows the student to continue to receive full credit for all class work completed as assigned by their regular academic teachers. I.S.S. students are also allowed the opportunity to continue to participate in extra-curricular activities. (This is solely the decision of the specific extra-curricular activity’s faculty sponsor or coach.)

Students who attend the in-school suspension class receive a detailed orientation that stresses how important it is for them to “start and finish” the I.S.S. assignment by staying on-task and following all rules throughout the entire suspension period. These requirements are clearly and communicated and enforced at all times for all students.

Students who do not complete their I.S.S. assignment (removed by supervisor) will be reassigned the original I.S.S. and given a second I.S.S. suspension. When their time is completed in a successful manner he/she will return back to their regular schedule classes.

Administration reserves the right to assign a 3-5 day O.S.S. (Out of School Suspension) for continued disruptive or insubordinate behavior during the I.S.S. suspension.

If the student is absent from their scheduled I.S.S. day, he/she will be rescheduled and expected to serve their referral.

To successfully complete the I.S.S. program, students must complete a thoughtfully well written Self Reflection Worksheet that will be turned in to the I.S.S. supervisor.

Once a student is assigned to in-school suspension, the student’s individual academic teachers are notified. Upon this notification, these teachers assemble and send the appropriate assignments, books, and/or materials for their I.S.S. students to be the in-school suspension teacher or classroom. Students are expected and required to stay on-task on these assignments at all times. It is the responsibility of the I.S.S. student to complete and return all assignments to their academic teachers for assessment. The student will receive an initial grade of “I” for any assignment not returned as required. The grade of “I” will be changed to a “0” by the academic teacher if the assignments are not completed.

Tardiness is not permitted in I.S.S. Students must report to the I.S.S. room before 7:45 a.m. with all textbooks, materials, and supplies.

STUDENT DUE PROCESS

Students shall have the following rights to due process with respect to short-term suspension, long-term suspension, and expulsion.

Short-term Suspension

Short-term suspension is a temporary exclusion from school, and any school-related extracurricular activities, for up to and including ten (10) school days. This supersedes the athletic and extracurricular codes. The building principal and/or his/her designee has the authority to suspend a student for a period of time up to and including five (5) school days. The building principal alone has the authority to suspend a student for more than five (5) school days.

No short-term suspension shall be imposed upon a student without giving the student notice of the charges and affording the student an informal hearing. The notice to the student may be oral or written and the informal hearing may be held immediately. The hearing may be conducted informally but shall include the following procedural due process requirements:

- a. The right of the student to be present at an informal hearing.
- b. The right of the student to be informed of the charges.
- c. If the student denies the charges, he or she also has the right to an explanation of the evidence supporting the charges.
- d. The right of the student to present his/her side of the story in defense of the charges or accusations.

Except in extenuating circumstances, no out-of-school suspension shall be initiated without prior parent/guardian notification. Oral or written notice of any short-term suspension and the reasons for the suspension shall be given to the parent or guardian of the student within twenty-four (24) hours after the suspension has been imposed.

Middle School Process

If a student or a parent or guardian is aggrieved at the issuance of a short-term suspension by the building principal and/or his/her designee, there shall be the right to appeal the short-term suspension to the building principal. This appeal may be conducted informally and shall follow the same procedural due process requirements described above in conjunction with the initial informal hearing. The right to modify any short-term suspension is exclusively within the discretion of the building principal, and no further appeal is permitted from the final decision of the building principal.

High School Process

If a student or parent/guardian is aggrieved at the issuance of a short-term suspension by the building principal and/or his/her designee, there shall be the right to appeal the short-term suspension to the building principal by doing the following:

1. A request for an appeal of a short-term suspension shall be made within three (3) days of the date the disciplinary action was taken. This appeal must be made in writing stating the adjustments being requested and the reasons thereof. This appeal shall be directed to the building principal who will conduct the review of the suspension.
2. On the basis of the review of the appeal, the building principal will notify the student and his/her parent(s)/guardian in writing of his/her decision to uphold, modify or reverse the suspension.
3. The decision to keep the suspension in effect or not (pending the written appeal) depends upon the severity of the infraction and will be the principal's decision.
4. The right to modify any short-term suspension is exclusively within the discretion of the building principal, and no further appeal is permitted from the final decision of the building principal.

Long-term Suspension

Long-term suspension is the exclusion from school, and any school-related activities, for a definite period of time in excess of ten (10) school days. A student may be suspended temporarily pending the Building Administrator's investigation into the alleged misconduct and pending any recommendation in writing that the student be suspended on a long-term basis.

A written notice of recommendation for a long-term suspension and the charges upon which the recommendation is based shall be mailed to the student and/or to the parent or guardian. A notice of recommendation for long-term suspension shall state the time, date, and place that the student will be afforded an opportunity for a formal hearing, and the hearing shall be held not later than ten (10) school days after the date of notice. The notice shall be accompanied by a copy of the Board of Education Policy No. 8350 and Administrative Regulation No. 8350-R.

A formal hearing shall be conducted by the Superintendent or his/her designee, and in accordance with Administrative Regulation 8350-R. Upon the conclusion of a formal hearing which results in a long-term suspension, a student or parent or guardian aggrieved at the issuance of a long-term suspension may appeal this suspension to the Board, or its designated hearing officer or officers, in accordance with Board of Education Policy No. 8350 and Administrative Regulation No. 8350-R.

Re-admission Procedures After Suspension

Any student suspended for five (5) days or longer is required to meet with the administrator who assigned the suspension prior to returning to classes. This meeting will be termed as a re-admission meeting. The purpose of this meeting is to help the student make a smooth transition back into classes.

EXPULSION

Expulsion is the permanent exclusion from school and any school-related activities. A student may be suspended temporarily, pending the Building Administrator's investigation into the alleged misconduct and pending any recommendation in writing that the student be expelled.

A written notice of recommendation for expulsion and the charges upon which the recommendation is based shall be mailed to the student and/or to the parent or guardian. A notice of recommendation for expulsion shall state the time, date, and place that the student will be afforded an opportunity for a formal hearing, and the hearing shall be held not later than ten (10) school days after the date of notice. The notice shall be accompanied by a copy of the Board of Education Policy No. 8350 and Administrative Regulation No. 8350-R.

The formal hearing shall be conducted by the Superintendent or his/her designee, and in accordance with Administrative Regulation 8350-R. Upon conclusion of a formal hearing which results in expulsion, a student or parent or guardian aggrieved at the issuance of an expulsion may appeal the expulsion to the Board, or its designated hearing officer or officers, in accordance with Board of Education Policy No. 8350 and Administrative Regulation No. 8350-R.

SUSPENSION/EXPULSION OF DISABLED STUDENTS

A disabled student may be suspended/expelled from school in accordance with District procedures to the extent that it does not constitute a change in the student's placement, or, if a change in placement, to the extent that the act of misconduct is not a manifestation of the student's disability. A change in placement is defined as a single suspension in excess of ten (10) consecutive days or multiple suspensions exceeding ten (10) days in accumulation and constituting a pattern. Procedures for suspension/expulsion of special education students which constitutes a change in placement will be in accordance with the state and federal special education laws.

TOBACCO, ALCOHOL, INHALANTS, PERFORMANCE-ENHANCING SUBSTANCE AND OTHER DRUGS

It is the strict policy of the Board of Education to prohibit the use, possession, and distribution by all students, staff and other personnel of tobacco, alcohol, inhalants, performance-enhancing substances and other illegal drugs at any attendance center, on school grounds, or at any school-sponsored events (see Board of Education Policies 8220 and 8230). The School District will fully cooperate with municipal authorities to prosecute persons charged with civil infractions in connection with these restrictions.

The use of tobacco has been proven harmful to health and may constitute a fire and safety hazard. The school district has a responsibility to encourage good health habits among all students and to protect against fire damage. Accordingly, appropriate instruction will be given regarding the harmful effects of smoking, and the use, possession, or distribution of tobacco products by students at any attendance center, school building, school grounds, or at any school-related event shall constitute an offense for which students shall be subject to the discipline further described in this Code of Conduct.

The use of alcohol and drugs by students in school and at school-related functions is not only illegal but detrimental to the educational process. It is also recognized that alcohol and drug dependency is a medical problem and a treatable disease. SEXUAL HARASSMENT

The Allen Park Public Schools is committed to providing a learning and working environment that is respectful of human dignity, including one that is free of sexual harassment. Abuse of the dignity of anyone through sexist slurs or through other sexually derogatory or objectionable conduct, is offensive behavior which will not be tolerated. It is, therefore, the policy of the School District to prohibit sexual harassment by any of its board members, staff members, other personnel, or students directed toward any other board members, staff members, other personnel, or students.

Sexual harassment is a violation of Title VII of the Civil Rights Act of 1964, Michigan's Elliot-Larsen Civil Rights Act, and may also violate Title IX of the Education Amendments of 1972. It is also against the policies of the School District for any board member, staff member, other personnel, or student, male or female, to sexually harass another board member, staff member, other personnel, or student, by:

- A. Making unwelcome sexual advances or requests for sexual favors or other verbal, non-verbal or physical conduct of a sexual nature, during the course of employment or school program or the making of same as a condition of a person's employment or advancement or of a student's participation in school programs or activities; or
- B. Making submission to or rejections of such conduct the basis for employment or school-based decisions affecting the employee *or* student; or
- C. Creating a sexually intimidating, hostile or offensive working and learning environment, which would adversely affect either the work performance or psychological well being of a reasonable man or woman in the complainant's situation.

Due to the serious nature of a charge of sexual harassment, the School District believes it is also important to understand what does not constitute this offense. Sexual harassment does not refer to compliments passing between individuals of a socially acceptable nature nor does it refer to welcome or consensual social interchanges. Rather, it refers to verbal or non-verbal behavior or physical contact that is of a sexual nature and unwelcome to the person who is the subject of the behavior. Conduct constituting sexual harassment may take different forms including, but not limited to, the following:

- A. Verbal: the making of sexual innuendoes, suggestive comments, jokes of a sexual nature, sexual propositions, threats, or propositions. This may occur in either an oral or written form.
- B. Non-Verbal: causing the placement of sexually suggestive objects, pictures or graphic commentaries in the work or learning environment or the making of sexually suggestive or insulting gestures, sounds, leering, whistling, and the like.
- C. Physical Contact: threatening or causing unwanted touching, contact or attempts at same, including patting, pinching, brushing the body or coerced sexual intercourse.

Any student who feels that he or she is being sexually harassed by any other student, students, or any other person shall report the incident(s) of sexual harassment to their parents or legal guardians, and to any teacher, counselor, school psychologist, school social worker, or building administrator with whom the student is comfortable. The School District employee will report any complaint of sexual harassment to an appropriate administrator and the Local Civil Rights Coordinator identified above on Page 24 for investigation and resolution of the complaint as set forth therein.

If it is determined that any student has committed any acts of sexual harassment, that student shall be subject to disciplinary action including suspension up to expulsion, based upon the severity and/or frequency of the offense(s). Such disciplinary action will be taken in accordance with the due process and appeal rights contained in this Code of Conduct.

If it is determined that any employee, administrator, or Board member has committed any acts of sexual harassment, prompt and appropriate disciplinary action will be taken, including and up to reprimand, suspension, discharge and removal, based upon the severity and/or frequency of the offense(s).

HAZING

The Board of Education believes that hazing activities of any type are inconsistent with the educational process and prohibits all such activities at any time in school facilities, on school property, at any District-sponsored event, or in conjunction with any school sponsored organization, club or athletic team.

Hazing is defined as any activity which endangers the physical health and safety of a student, produces mental or physical discomfort, causes embarrassment, fright, humiliation, harassment or ridicule, or degrades the student for the purpose of being initiated into, affiliating with, participating in, holding office in or maintaining membership in any organization, club or athletic team regardless of the willingness on the part of the student or the student's parents/guardians to participate in any such activities.

Administrators, faculty members, and other employees of the District shall be alert particularly to possible situations, circumstances, or events, which might include hazing. If hazing or planned hazing is discovered, the students involved shall be informed by school personnel of the prohibitions contained in this policy and shall be ordered to end all hazing activities or planned activities immediately. All hazing incidents shall be

reported to the Superintendent by the building Principal. Students, administrators, faculty members, and other employees who fail to abide by this policy may be subject to disciplinary action and may be held personally liable for civil or criminal penalties.

VIOLENT/AGGRESSIVE BEHAVIOR

It is the strict policy of the Board of Education to provide a safe and orderly environment for its students and staff, including one that is free of violence and assaultive behavior. Such acts will not be tolerated or ignored by the School District. Violent behavior occurs when anyone inflicts or threatens to inflict physical or emotional harm upon another person.

An assault, by legal definition, is defined as the act or acts in attempting to intentionally place another person in reasonable fear of physical or emotional harm. Battery is defined as the unlawful and unwanted touching or striking of one person by another, with the intention of bringing about a harmful or offensive contact.

Commission of an assault and/or battery shall apply to any person on school property, when going to or from school, during the school day or attending any school-sponsored event, and shall constitute an offense for which students shall be subject to discipline further described in the Code of Conduct, specifically three (3) days suspension up to expulsion, based upon the severity and frequency of the offense(s).

Aggravating circumstances may include but are not limited to:

- a. infliction of serious injury
- b. use of any weapon, or object used as a weapon
- c. multiple assailants

Assaultive behavior with aggravating circumstances shall result in expulsion and referral to police.

Cumulative Records

Section 1. Classification and Maintenance of Records

Information about students that is collected and stored by school personnel shall be separated into one of the following three classifications:

- A. **ADMINISTRATIVE RECORDS** ~ This classification includes official administrative records that constitute the minimal personal data necessary for operating the education system. It includes birth date, sex, race, names, address, and places of employment of parents, academic work completed, grades, attendance records, withdrawal and re-entry records, honors, and activities, date of graduation, class rank, and follow-up records.
- B. **SUPPLEMENTARY RECORDS** ~ This classification includes verified information that is important in operating the educational system but is of a more sensitive nature and of less historical importance. It includes:
 - test data such as scores on standardized achievement, aptitude, and intelligence tests

- observational data such as systematically gathered teacher or counselor evaluations and observations of social and personal assets, clinical findings, and verified reports of serious or recurrent deviant behavior patterns
- general data such as health data; family background information, and educational and vocational plans

C. TENTATIVE RECORDS ~ This classification includes useful information that has not been verified or is not clearly needed beyond the immediate present. It includes unevaluated reports of teachers or counselors that may be needed in on-going counseling or disciplinary actions.

Administrative records shall be permanent and maintained by the school for an indefinite period. When the student graduates, supplementary records shall be destroyed or shall be transferred to the administrative records if they have permanent usefulness. Tentative records shall be destroyed when the use for which they were collected is ended. However, tentative records may be placed in the supplementary classification if the continuing usefulness of the information is demonstrated and its validity verified.

To eliminate unnecessary or outdated information, a student's records shall be reviewed, at a minimum, when moving from elementary level to middle school and from middle school to high school, and upon graduation.

Section 2. Procedure

The principal shall have the overall responsibility for maintaining and preserving the confidentiality of student records. The principal may designate another school official to perform these duties.

The principal or designee is responsible for classifying records and maintaining them so that each record can clearly be identified by classification. The principal is responsible for reviewing the files and deleting supplementary and tentative records when necessary.

RIGHTS TO ACCESS AND PRIVACY OF RECORDS

All parents and guardians of students under 18 years of age and all students 18 years of age or over have the right, pursuant to the Family Education Rights and Privacy Act of 1974, to examine the official records, files, and data of the school district directly relating to the student. They also have the right to challenge any of the contents of said records to ensure their accuracy and fairness. Procedures for such examination and challenge, including hearings on a challenge, shall be established by the Board of Education and be made available upon request.

No records, files, or data directly relating to an individual student shall be made available to anyone without the consent or notification of the student or of the parent or guardian of a student under 18, except for teachers and officials of this School District who have a federal request for submission of student records in connection with the student's application for financial aid, and as otherwise provided by law and/or regulation. The student or parent will be notified if officials of a school to which a student intends to enroll desire access to student records, or if a court has ordered access to

such records. For other release of student's records, parental or student consent is needed unless otherwise provided by law and/or regulation.

Any parent or student objecting to the release of such information shall notify school authorities of this objection, in which case the information relating to that person will not be made public.

Dissemination of Student Records

STUDENT AND PARENTAL ACCESS

Any student 18 years of age or older attending school, or any parent of a student who is under 18 and attending school, may examine the official records, files, and data of the school directly relating to the student. The parent of a student 18 or older does not have the right to examine the student's files without the student's consent. The term "parent" includes guardian. The official records, files, and data which are accessible to a student or parent include all matter in the student's cumulative record and include, but are not limited to, the following:

- identifying data
- academic work completed
- level of achievement (grades, standardized achievement test scores)
- attendance data
- scores on standardized intelligence, aptitude, and psychological tests
- interest inventory results
- health data
- family background information
- teacher and/or counselor ratings and observations
- verified reports of serious or recurrent behavior patterns

Notes or observations made concerning a student by an individual teacher, counselor, or administrator which are not communicated to other persons are not considered part of the official records, files, and data which must be made available. If a student's official record includes data on another student, a person entitled to examine the record should receive or be informed of only that part of the record pertaining to the individual or the child or the individual entitled to access. Information regarding other identifiable students should be excluded.

Section 3. Third Party Access

Without the consent of an adult student, or of the parents if the student is under 18, no school may divulge records or personal information contained in them to anyone except:

1. teachers or school officials within the District who have legitimate educational interest in looking at the records
2. official of a school or system in which the student intends to enroll if:
 - a. the student or parents are notified
 - b. the student or parents are allowed a copy of the transmitted material, if desired
 - c. the student or parents are given an opportunity for a hearing to challenge the contents of the transmitted material
3. in compliance with a judicial order or lawfully issued subpoena, if the student or parents are notified of such an order or lawfully issued subpoena in advance of compliance
4. when a student applies for financial aid, the Secretary of Education or an administrative head of a federal education agency may request the student's records be sent to the Secretary, such as administration head, or a third person. In this instance, records may be transmitted with the consent or notification of the student or parents (examples of administrative heads of a federal education agency are the Commissioner of Education, Director of the National Institute of Education, and the Director of the National Center for Educational Statistics). If the request for access by the Secretary of such an administrative head is made not in connection with an application for financial aid, the Secretary or such an administrative head is authorized only to request data or personal records which do not contain the names of students or their parents.
5. other individuals, agencies, or organizations authorized by the Family Educational Rights and Privacy Act as amended from time to time to receive records and information contained therein without consent but only upon conditions set forth in the act.

A record will be made of all requests for access to student records except requests made pursuant to paragraph one above.

The request for access forms shall be executed and filed except in the five numbered items above.

Access To Student Records, File, and Data

1. A written request for access to records must be made to the principal of the building or the Superintendent. The request must specify with clarity which records or what data is requested.

2. If made by a student 18 years of age or older, or by the parents of a student under 18, the request shall be granted within ten (10) days, if possible, but in no event longer than forty-five (45) days after the request is made.
3. Examination of records shall only be made during the regular office hours of the school building in which the records are retained; records shall be reviewed in a place designated by the principal or Superintendent and shall be reviewed in the presence of the principal or his/her designee.
4. In general, parents or students bear the responsibility for providing consent for a third party who wishes access to records.
5. The School District has no obligation to provide free services such as copying and mailing. Actual costs of such services may be charged. However, no "record fee" shall prevent access by a student or parent who is financially unable to pay such a fee.

All request and consent forms for examination and/or transfer of records shall become a permanent part of the student's records.

Hearing Procedure

CHALLENGES AND HEARINGS

A student 18 years of age or older, or the parent of a student under 18, may challenge the content of applicable school records on the grounds that it is inaccurate, misleading, or otherwise inappropriate. If desired by the student or parent, a hearing shall be conducted to provide an opportunity for the correction or deletion of contents.

- a. A written request must be made for a hearing. This request shall initially be made to the principal of the building.
- b. A hearing shall be conducted by the building principal within thirty (30) days of receipt of the request with allowance for representation of all parties by an attorney or a layman, the presentation of evidence, and cross-examination at the hearing (a written record of the hearing shall be made).
- c. This process (items 1 and 2) can be repeated with the Superintendent of Schools (the initial request can be eliminated and can be passed on to the Superintendent if the Superintendent feels it is warranted).
- d. A final appeal process can be made to the Board of Education after a hearing with the Superintendent.

In all of the above instances, the hearing shall be private in order to protect the confidentiality of the student's records.

The total time limit following receipt of the written request to the initial day of the board hearing shall not exceed forty-five (45) days.

MEDICATIONS

Medication Given by Staff to Student

No medication is to be given to any student by an employee unless policy and regulations are followed.

The administration of prescribed medication and/or certain physician prescribed procedures to a student during school hours will be permitted only when failure to do so would jeopardize the health of the student, or the student would not be able to attend school if the medication or procedures were not made available during school hours.

A school administrator, teacher, or other school employee designated by the school administrator may administer prescription medication and/or certain physician-prescribed procedures to students upon the written request of parents or guardians, along with instructions from the attending physician, and in accordance with administrative regulations established by the Superintendent.

The form entitled, "Permission to Administer Medication," must be completed prior to the administration of any medication or treatment.

Staff must administer medication in the presence of another adult in order to benefit from MCL §380.1178 that holds harmless from criminal or civil action an employee who properly administers such medication.

Student Self-Administered Medication

State law permits students to physically possess inhalers and EpiPens prescribed by their physicians. However, the Permission to Administer Medication form must be completed prior to the use of these medications.

At the elementary level, students are permitted to possess only EpiPens and/or inhalers. All other prescriptions and non-prescription medication are dispensed through the principal's office in accordance with the administrative regulations accompanying this policy.

At the middle school level, students may possess EpiPens and/or inhalers as well administer appropriate non-prescription medications provided by their parents for the students' personal use. However, all prescription medication must be administered in the appropriate school office, utilizing district procedures outlined in the administrative regulations accompanying this policy.

At the high school level, students may possess EpiPens and/or inhalers as well as administer prescribed dosages of prescription and non-prescription medication authorized by their parents or their physician for the personal use of the student. Verification of authorization may be requested when there is a question about the use of a particular medication.

Unauthorized use of prescription or non-prescription medication may place the student in jeopardy of violating the District's policy against substance abuse.

Exceptions to this policy may be made by the Superintendent after discussion with the student's parent(s) or guardian(s) and appropriate administrative personnel.

Use of Medications

No medication is to be given to any student except under the following conditions:

- A. Medications which must be taken by pupils at school requires a written request from the parent(s) or guardian(s) together with a written set of instructions from the physician prescribing the medicine. The child's name, the doctor's name, the name of the expected duration of the treatment, possible side effects, and special instructions, shall be listed clearly by the doctor on the Permission to Administer Medication form. This request is to be kept on file in the school office.
- B. The container must be labeled with the child's name, the doctor's name, the name of the medicine, dosage, and frequency of administering the medication. All medications will be dispensed through the school office except those outlined in the Policy.
- C. Medication may be given by either a school administrator, teacher, or other school employee designated by the school administrator and must be administered in the presence of another adult. The person administering the medication must verify the identity of the student and match the medication being dispensed.
- D. Prescription medications for the elementary and middle school students must be brought to the school by the parent in order for proper procedures to be established.
- E. Students at all levels who carry EpiPens and inhalers must have that fact indicated on the Student Emergency Card.
- F. If there is a question regarding the legitimacy of a particular medication, the principal or designee shall investigate. Guidance from the parent(s) or guardian(s) and/or physician is mandatory.
- G. Parent(s) or guardian(s) must be informed that it is their responsibility to notify the school of any changes in the medication status of their children.
- H. Questions or concerns regarding implementation of this policy must be submitted to the principal or superintendent as appropriate.

The Storage of Medicine

Prescribed, medicinal preparations (with the exceptions of EpiPens and inhalers carried by the student) shall be stored in a securely locked, designated location at all times; the principal shall be responsible for designating such location. Each principal or authorized person shall store the identified supply of prescribed medication.

The following guidelines shall be applicable for the storage of medicines:

- Internal medication shall not be stored in any school unless it has been currently prescribed.
- Unused medication shall be returned to the parent or responsible guardian within one week. If such a return is not possible, the principal or authorized person shall dispose of such medication and duly record the action.
- The principal or authorized person shall make recommendations, whenever possible, to the parent concerning the safe storage of medication in the home.

Legal Records

In each school wherein any medicinal preparations are administered, the principal or authorized person shall keep a record book with consecutively numbered pages in which shall be recorded in ink the administration of medicinal preparations.

The following guidelines shall be applicable to such record keeping:

- The record book, as a legal record, shall be kept in a secure place, preferably under lock with the medications.
- All entries must be in ink and in sequential order.
- If the student refuses to take the medicine, or it is not administered as prescribed, a notation should be recorded and the parent notified.
- If an error is made when recording, a pen line should be drawn through the entry and the correct data should be recorded on the next line and signed.
- The written order of the physician and the written authorization of the parent or responsible guardian shall be filed with the student's cumulative health record and retained for a minimum of three years.
- An appropriate summary for each medication shall be completed at least once every school year and shall be included as part of the student's health record.

RETENTION POLICIES

Grades Kindergarten through 12

The Board of Education recognizes the need for students to progress through school demonstrating the satisfactory completion of the required work as preparation for the next higher grade. However, because of individual differences in all children, children may be placed at the grade level to which they are best adjusted academically, socially, and emotionally.

Any student receiving a D, E, or U grade at the midpoint of a marking period shall have a progress report sent to his/her home to inform the parents. A progress report should also be sent home at this time if a student's grade is dropping by two or more grades (i.e., from A to C).

Criteria For Retention

The following areas must be considered:

- a. academic skills
- b. emotional development
- c. social skills
- d. chronological age
- e. size and physical development
- f. attitudes and reaction of student and parent

Quantifying specific standards to be applicable to elementary students is most difficult. The evaluation of students remains with the professional judgment and discretion of the child's teacher and building administrator.

Allen Park Middle School

- At the end of the first semester, all students who appear headed for possible retention will be called in to their counselor and the possible consequences will be explained. A letter will be sent to the parents, and they will be contacted by phone.
- At the end of the third marking period, all students who appear headed for possible retention will be called in to their counselor to set up a meeting with student, counselor, principal, and parents. A letter will be sent to parents after the meeting to remind them of what happened at the meeting.
- When the final grades are turned in, the potential retentions will be checked, and the parents will be notified immediately.
- The three steps listed above will be followed so that parents of students who may be retained are kept up to date. Parents of retained students will be notified by the counselor or the principal as soon as final grades are available.
- A parent may appeal their child's retention by making a written request to the principal.

Elementary School

Procedure For Retention

- At the end of the second card marking, all parents of students who appear headed for possible retention will be called in to meet with the teacher and the possible consequences will be explained. Parents could be notified at a later date if the student is failing to achieve as a result of missed participation. A letter relative to the details of the meeting will be filed in the student's CA60 with a copy sent to the parents.
- At least six weeks prior to the end of the school year, all parents of students who appear headed for possible retention will be called in to meet with the teacher and principal. A letter relative to the details of the meeting will be filed with a copy sent to the parents.
- A parent may appeal their child's retention by making a written request to the principal.

The categories of misconduct listed on the following pages are not an all-inclusive list. School officials have the authority to deal with other types of conduct that interfere with the proper functioning of the education process in a manner appropriate to the offense.

Placement and movement within the sanctions that can be assigned to an infraction will be proportionate to the severity of the misconduct. The administration reserves the right to deal with each offense on an individual review basis. Administration reserves the right to conduct a parent meeting prior to student re-entering class from a suspension.

Consideration for assignment of the sanction that may be more severe may include the following:

1. The actual harm or injury caused
2. The risk of harm to the student and/or others
3. The intent of the student
4. The number and seriousness of prior infractions committed by the student
5. The seriousness of the penalty required in the circumstances to discourage future violations by the student or by others
6. Legal considerations and statutory obligations
