Subject: Parent Connect Registration

As a parent of a current Marysville Public Schools District student, you have the opportunity to use a product that will allow you to view your child's school information via the web. The product, Zangle ParentConnect, will allow access to pertinent information about your child. To use ParentConnect, you will need Internet access, an e-mail address, and a browser such as Internet Explorer.

In order to access the secured information that is available via ParentConnect, you will need to register for an account. This account will allow you to view information for all your children, regardless of grade level.

The registration process is fairly straightforward. Simply complete a ParentConnect Registration Form, available at our website (www.marysville.k12.mi.us) or in your child's school. You may list all your children on one form—you do not need to complete a separate form for each building. **Please return the completed form to the secretary of the school building of your choice.**

Once your form is received, district staff will verify the information and create your ParentConnect account. You will then receive notification from one of the schools of availability of your PIN/password, which you can come in and pick up at your leisure. You must pick up your PIN/password in person. You will be asked to produce a driver's license as proof of identity at the time of pickup. When you receive your information, just visit the school district web page (www.marysville.k12.mi.us) and click on the ParentConnect button to gain access.

If you have any questions about ParentConnect, you may contact Heather Kernohan, Central Office Secretary (810-455-6006). We hope you are excited about this expanded parental opportunity.
