**Electronic confirmation of registration and a receipt will be sent to e-mail address provided.**

## TRAUMA CARE:

### *Life Changes in an Instant*

This years' conference will focus on both the physiological and psychological impact of traumatic injury and the many ways trauma affects the lives of patients and their families.

This multi-disciplinary educational event will feature presentations by trauma care experts and will once again include a truly personal view of trauma from a family who recently experienced its overwhelming ripple effect.

Breakfast, lunch and refreshments are included as well as an opportunity to view exhibits of many trauma related products and services.

At the end of the day, we trust that you will have enhanced your knowledge in the management of trauma patients, networked with other trauma care providers from the New England area, and had some fun as well!

## REGISTRATION FEES

### **Special Early Bird Registration Price**

To qualify for Early Bird discount, registration and payment must be received by **9/6/11**.

## CONFERENCE OBJECTIVES

*After this conference, participants should be able to:*

- Describe the physiological and psychological impact of trauma.
- Discuss the practical application of clinical practice to regional healthcare.
- Identify clinical interventions that minimize the impact of hypothermia, metabolic acidosis, coagulopathy and hypovolemia.
- Describe the evolution of treatment modalities for acute spinal cord injuries.
- Describe the reconstructive ladder from simple reconstructive options to complex.
- Discuss methods to improve verbal and non-verbal family communication.
- Identify challenges in the care of multi-system trauma patients through case presentations.

## PETER D. SMITH MEMORIAL LECTURE
